

## Welcome to Bar du Champagne

We source sustainable, delicious wines from both rising stars and acclaimed names. We look for wines with a sense of joy, place and character. Most of these wines are produced following organic or biodynamic principles. Many are certified. Many of our producers work with reduced or no added sulphites, but always in the service of purity and consistency. This short opening list is a show of things to come, and highlights the gorgeous diversity of sparkling wine. From Champagne, there are grower and house Champagnes reflecting the diversity and excitement illuminating the region. For classic-method sparkling outside of Champagne, we are thrilled to have great examples from regional France and of course from Cava, Spain. We love good prosecco, and offer a top producer from the Valdobbiadene heartland, as well as an example of the cloudy heritage style of 'Col Fondo'. The natural side of fizz is represented by several Pet Nat and Méthode Ancestrale wines.

Please be aware that some of the grower Champagnes are extremely rare and available in limited quantities.

In still wines, we look for discovery, deliciousness and true value with carefully sourced classics and some wonderful unusual suspects.

Sarah Abbott MW.
